

Format for submitting pursuant to Article 8 of the Stockholm Convention the information specified in Annex E of the Convention

Introductory information	
Name of the submitting Party/observer	Republic of Mauritius
Contact details (name, telephone, e-mail) of the submitting Party/observer	<p>Mr. Aslam Yadallee</p> <p>Address 5th Floor, Ken Lee Tower Barracks Street, Port Louis Port Louis Mauritius</p> <p>Telephone no: (230) 208 7866 Fax no: (230) 211 1951 E-mail: envlaw@intnet.mu</p>
Chemical name (as used by the POPS Review Committee (POPRC))	Chlordecone
Date of submission	27. 01. 2006

(a) Sources, including as appropriate (provide summary information and relevant references)	
(i) Production data:	Nil
Quantity	Nil
Location	Nil
Other	Nil
(ii) Uses	<p>Chlordecone is listed as a prohibited agricultural chemical in the Dangerous Chemical Control Act, which is the national legislation for the management of chemicals in Mauritius. The law provides that no person shall import, manufacture, use or possess Chlordecone.</p> <p>There is no evidence that Chlordecone has been used in the past and no obsolete stock of Chlordecone is available.</p>
(iii) Releases:	Nil
Discharges	Nil
Losses	Nil
Emissions	Nil
Other	Nil

K0582396 290705

For reasons of economy, this document is printed in a limited number. Delegates are kindly requested to bring their copies to meetings and not to request additional copies.
--

(b) Hazard assessment for endpoints of concern, including consideration of toxicological interactions involving multiple chemicals (provide summary information and relevant references)	
No data available	

(c) Environmental fate (provide summary information and relevant references)	
Chemical/physical properties	No data available
Persistence	No data available
How are chemical/physical properties and persistence linked to environmental transport, transfer within and between environmental compartments, degradation and transformation to other chemicals?	No data available
Bio-concentration or bio-accumulation factor, based on measured values (unless monitoring data are judged to meet this need)	No data available

(d) Monitoring data (provide summary information and relevant references)	
No data available	

(e) Exposure in local areas (provide summary information and relevant references)	
--	--

- general	Not available
- as a result of long-range environmental transport	Not available
- information regarding bio-availability	Not available

(f) National and international risk evaluations, assessments or profiles and labelling information and hazard classifications, as available (provide summary information and relevant references)

No data available

(g) Status of the chemical under international conventions

No information available
