

## 7. Electronic approaches to the notification and movement documents

Decision: BC-14/11: Electronic approaches to the notification and movement documents

Background:

In decision BC-14/11, the Conference of the Parties, among other things, took note of the responses provided by Parties and others pertaining to information on their experiences with electronic approaches to the notification and movement documents<sup>1</sup> and acknowledged the need to look further into electronic approaches to the notification and movement documents.

Follow up:

	<b>Calls for information</b>	<b>Respondents</b>	<b>Methods of submission</b>	<b>Deadlines for submission</b>
(a)	Parties and others are invited to provide information on their experiences in developing and implementing electronic systems for exchanging information on or controlling the movements of goods and wastes.	Parties Others	Please make submissions to the Secretariat via the contact point provided below.	<b>30 September 2019</b>
(b)	Parties and others are invited to provide information on experts who could contribute to the consultative workshops to explore options for a Basel Convention system that would allow for the automation of processes and the electronic exchange of information relating to the notification and movement of hazardous and other wastes, their expected benefits and requirements, and possible steps towards their implementation referred to in subparagraph 4 (b) of decision BC-14/11.	Parties Others	Please make submissions to the Secretariat via the contact point provided below.	<b>30 September 2019</b>
