Environmental Project no. 1013

More environmentally friendly alternatives to PFOS-compounds and PFOA

Contents

Preface

Summary and conclusions

Background and purpose

Project results

Summary of the use of PFOS-related substances and alternatives

Summary of the use of PFOA-related substances today

Most important use area from an environmental perspective

Health and environmental exposure and effects of polyfluorinated substances

Environmental exposure and effects of non-fluorinated alternatives

Health effects of non-fluorinated alternatives

Main conclusions

Sammenfatning og konklusioner

Baggrund og formål

Projektresultater
