

Best practices in PCB management in the mining industry in South America in Chile and Peru

Basel Convention Regional Center for
South America

Leila Devia - Director

CRBAS
Centro Regional
para América del

I. Basel Regional Centre South America

- Serves 10 countries in the region
- It is located in the National Industrial Technology Institute

CRBAS
Centro Regional Basilea
para América del Sur

I. Project

Valuable assessments are being produced in this context, as well as reference documents for the regions and changes that will be conducted to the application of best practices and the introduction of the best technologies

II. Project

- **The BCRC has secured the commitment of the public and private sectors from both countries, which apart from becoming actively involved, have made a direct impact.**

III. Project

Co-funding of several project components and activities

Thanks a lot !!!
